

Didactic work

During my work in Prof. Wiktor Dega Clinical Hospital in Poznań I conducted classes and tutorials with students of the faculty of medicine. I was also a tutor of physicians during trainings in the scope of microsurgery and spine surgery. During courses organized by CMPK I conducted lectures in the scope of application of apparatus and prosthesis of the upper limb. During my work in Prof. Wiktor Dega Clinical Hospital in Poznań, from 1990 to 2009, I was a co-organizer of international and national scientific congresses on the treatment of pathological states of upper limb and spine.

Since 2010, in the scope of postgraduate education of physicians organized by Medicine Chamber of Greater Poland, I have conducted trainings in diagnostics and treatment of compression neuropathy (8 educational points) where I fulfill the function of a scientific supervisor of trainings.

Organizational work

In 1997 I belonged to an initiative group which led to the foundation of the Polish Association of Hand Surgery. From 2001 to 2003 I was establishing the Management of Spondyloorthopaedics Section of the Polish Association of Orthopaedics and Traumatology where I fulfilled the function of a treasurer. In 2002 I organized the Polish Association of Spine. I am a member of the following scientific associations:

Polish Association of Orthopaedics and Traumatology of Motor Organs.

Polish Association of Hand Surgery,

Polish Association of Spine

Acting for the community, I fulfill the function of a Deputy of District Counsel of Professional Liability at the Medicine Chamber of Greater Poland in Poznań (position held by a common election of medical local government 2009).

Academic achievements

My scholarly achievements are assessed for over 250 KBN/MNiI points. After 2001 I published 30 scientific works in indexed journals. In 20 works I am the first author. My works were cited 33 (thirty three) times in specialist literature. I am the author of 15 papers for conventions in Poland and abroad, and of 3 (three) scientific monographs on nerves' surgery.

Scientific achievements

I have been dealing with problems connected with compression neuropathy of upper limbs for over ten years. This is the continuation of academic topics I was working on while preparing my dissertation for the degree of a doctor of medical sciences. In 2003, as a co-author, I presented a monograph *Surgical treatment of compression neuropathy of upper limb*. I was developing issues presented in it in such a way that in 2005 I put forward an academic monograph *Skuteczność metod maoinwazyjnych w operacyjnym leczeniu neuropatii*
